## Ostomy Skin Tool Score Sheet

### Domain 1
#### Area of Discolouration
- If the **area of discolouration** score is 0, the skin is normal and the **total score** must be 0 + 0

#### Severity of Discolouration
- If the area of discolouration score is 1-3, assess the severity score 1-2

### Domain 2
#### Area of erosion
- If the **area of erosion** score is 0, the score for domain 2 must be 0 + 0

#### Severity of Erosion
- If the area of erosion score is 1-3, assess the severity score 1-2

### Domain 3
#### Area of tissue overgrowth
- If the **area of tissue overgrowth** score is 0, the score for domain 3 must be 0 + 0

#### Severity of Tissue Overgrowth
- If the area of tissue overgrowth score is 1-3, assess the severity score 1-2

### Total score:

---

**Date:___________**

**Domain 1**

**Area of Discolouration**
- If the **area of discolouration** score is 0, the skin is normal and the **total score** must be 0 + 0

**Severity of Discolouration**
- If the area of discolouration score is 1-3, assess the severity score 1-2

**Domain 2**

**Area of erosion**
- If the **area of erosion** score is 0, the score for domain 2 must be 0 + 0

**Severity of Erosion**
- If the area of erosion score is 1-3, assess the severity score 1-2

**Domain 3**

**Area of tissue overgrowth**
- If the **area of tissue overgrowth** score is 0, the score for domain 3 must be 0 + 0

**Severity of Tissue Overgrowth**
- If the area of tissue overgrowth score is 1-3, assess the severity score 1-2

**Total score:**

---

**Date:___________**

**Domain 1**

**Area of Discolouration**
- If the **area of discolouration** score is 0, the skin is normal and the **total score** must be 0 + 0

**Severity of Discolouration**
- If the area of discolouration score is 1-3, assess the severity score 1-2

**Domain 2**

**Area of erosion**
- If the **area of erosion** score is 0, the score for domain 2 must be 0 + 0

**Severity of Erosion**
- If the area of erosion score is 1-3, assess the severity score 1-2

**Domain 3**

**Area of tissue overgrowth**
- If the **area of tissue overgrowth** score is 0, the score for domain 3 must be 0 + 0

**Severity of Tissue Overgrowth**
- If the area of tissue overgrowth score is 1-3, assess the severity score 1-2

**Total score:**

---

**Date:___________**

**Domain 1**

**Area of Discolouration**
- If the **area of discolouration** score is 0, the skin is normal and the **total score** must be 0 + 0

**Severity of Discolouration**
- If the area of discolouration score is 1-3, assess the severity score 1-2

**Domain 2**

**Area of erosion**
- If the **area of erosion** score is 0, the score for domain 2 must be 0 + 0

**Severity of Erosion**
- If the area of erosion score is 1-3, assess the severity score 1-2

**Domain 3**

**Area of tissue overgrowth**
- If the **area of tissue overgrowth** score is 0, the score for domain 3 must be 0 + 0

**Severity of Tissue Overgrowth**
- If the area of tissue overgrowth score is 1-3, assess the severity score 1-2

**Total score:**

---

Patient Name
Domain 1: Discolouration

**Area of discolouration** (including eroded areas)

- Normal skin (absence of any visible change and damage to epidermis)
  - Score = 0

- Less than 25% of the skin covered by the adhesive is affected
  - Score = 1

- Between 25% and 50% of the skin covered by the adhesive is affected
  - Score = 2

- More than 50% of the skin covered by the adhesive is affected
  - Score = 3

- Slight redness or other discolouration of the peristomal skin
  - Please assess severity

- Deep red or highly macerated skin potentially causing further complications
  - Please assess severity

**Severity of discolouration**

- Normal skin (absence of any visible change and damage to epidermis)
  - Score = 0

- Less than 25% of the skin covered by the adhesive is affected
  - Score = 1

- Between 25% and 50% of the skin covered by the adhesive is affected
  - Score = 2

- More than 50% of the skin covered by the adhesive is affected
  - Score = 3

- Damage to the top layer of the skin (the epidermis)

**Example**

If the **Area of discolouration** score is 0, the skin is normal and the total score must be 0 + 0.

---

Domain 2: Erosion

**Area of erosion**

- No erosion/excoriation
  - Score = 0

- Less than 25% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 1

- Between 25% and 50% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 2

- More than 50% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 3

**Severity of erosion**

- Damage to the top layer of the skin (the epidermis)

**Example**

If the **Area of erosion** score is 0, the total area of erosion must be 0 + 0.

---

Domain 3: Tissue overgrowth

**Area of tissue overgrowth**

- No tissue overgrowth
  - Score = 0

- Less than 25% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 1

- Between 25% and 50% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 2

- More than 50% of the skin covered by the adhesive is affected
  - Please assess severity
  - Score = 3

**Severity of tissue overgrowth**

- Damage to dermis causing excessive moisture or bleeding

**Example**

If the **Area of tissue overgrowth** score is 0, the total area of tissue overgrowth must be 0 + 0.
