Community Living Owen Sound
769 4th Ave. East, Owen Sound
Start date September 18th 2012

Finish date: November 6th 2012

Registration Deadline: Sept. 8th 2012

****The AHPCE course is for: Personal Support Workers, Hospice Volunteers and other unregulated healthcare providers who have completed The Fundamentals of Hospice Palliative Care (2005 to 2011)
About the course:

This is an **8-week (3 hour classes)** course involving a standardized curriculum, funded in part, by the Ministry of Health-Long Term Care and recognized throughout Southwestern Ontario.

The AHPCE course is designed to align with *The Fundamentals of Hospice Palliative Care* course and is based on the national model, *A Model to Guide Hospice Palliative Care 2002.*

The **3 Foundational Concepts** of Hospice Palliative Care are addressed throughout the 8 sessions. These are:

1. Effective communication
2. Effective Group Function
3. Ability to Facilitate Change

Resources:

1. The Fundamentals of Hospice Palliative Care Resource Guide (provided in *The Fundamentals of Hospice Palliative Care* course)
2. The AHPCE Learner Workbook

**Course Fee: $60**

**Performance Objectives:**

After 6 months experience in his or her role following active participation in the AHPCE course and with support from peers and managers, the learner will have the ability to positively influence the illness experience for the person and family to the extent that the learner:

1. Consistently demonstrates and practises sensitivity, understanding, and respect for the individuality of the person/family and team/caregivers involved in the palliative illness experience
2. Effectively communicates with the person, family, and team
3. Observes, recognizes, and reports issues and changes in any of the domains of issues associated with illness and bereavement
4. Provides palliative supportive strategies within his/her scope of practice
5. Actively contributes to the team approach to hospice palliative care

**Course Expectations:**

- 100% attendance and active participation in each session
- Satisfactory completion of assignments and session readings
- Respect for feelings and opinions of other learners
- Regard for confidentiality
- Completion of course evaluation

These sessions are facilitated by a local or regional professional with teaching experience and expertise in the field of Hospice Palliative Care.
